

# 2012 Product list

## Active ingredients

Our active ingredients are the skin's natural allies. Derived from cutting-edge R&D, they fulfil our ambition of bringing out the very best in each plant.

### Effipulp®

Revitalizes cell functions through its detoxifying effect (Proteasome). This Avocado peptides concentrate stimulates the synthesis of **Hyaluronic Acid** and proteins ensuring good cohesion of the stratum corneum, to **restore volume** to mature, dehydrated and stressed skin.

### Skinergium® 2 / Skinergium® Bio\*

Boosts the **skin's radiance and luminosity and reduces wrinkles**. This Maca root extract from the high plains of the Andean is recommended for mature, tired or dull skin. Available versions: paraben-free liquid (Skinergium® 2) and preservative-free powder (Skinergium® Bio\*).

### Collageneer®

Stimulates the production of a high-quality collagen, thanks to its effect on HSP47. This preservative-free extract from the coating of sweet white Lupin seeds **remodels the facial contour and increases the skin's elasticity**.

### Soline® / Soline® Bio\*

**Optimizes the skin's barrier function** by acting on the synthesis of key epidermic lipids. This 100% natural and preservative-free active ingredient has also **soothing properties**. This dual activity offers a complete response to the problems of dry, mature or reactive skin.

### 5 α Avocuta®

**Reduces excessive sebum secretions** by inhibiting 5 α reductase. Preservative-free compound made up of esters from vegetable origin, this active ingredient has proven its effectiveness on the **skin and hair**.

### Actimp® 1,9,3 PF

**Prevents premature ageing** resulting from UV exposure or pollution by inhibiting MMP 1, 9 and 3. Comprising 10% of sweet white Lupin peptides, this active ingredient is used in sun creams and skin care products designed for city dwellers.

### α-Lupaline®

**Protects DNA** from harmful rays and **inhibits elastase**. This combination of oleodistillate of wheat germ oil and Lupin oil provides a dual response to ageing.

### Sesaline® Bio\*

Very rich in sesamin and sesamol, this active ingredient has powerful **anti-radical and anti-oxidant properties**. This oleodistillate of organic sesame oil contains no preservative.

### Hierogaline®

Powerful **anti-radical agent** that protects against cellular damage even when applied after UV exposure. A preservative-free combination of oleodistillate of organic sesame oil and oleodistillate of wheat germ oil.

\* Raw material certified by Ecocert Greenlife according to the Ecocert Standard for Natural and organic Cosmetics available at <http://cosmetics.ecocert.com>

**EXPANSCIENCE®**

LABORATOIRES

## Science & conscience, naturally

# Plant Extracts

The quality of our vegetable oils and butters is the result of our recognized expertise. Their stability is one of the signatures of Laboratoires Expanscience.

### Cherry Powder

Obtained from the cherry stones, this **exfoliating powder** can be formulated in natural or organic face scrubs as well as in exfoliating and purifying shower gels.

### Avocado Oil

This **nourishing and protective** oil is obtained by pressing dried fruit. The refining and winterisation process produces a clear, limpid and extremely stable oil.

### Virgin Prunus Oil

Adds a delicate **natural almond aroma and a gentle, silky feel** to the formulas. This virgin oil, rich in oleic acid and with a high tocopherol content, is derived by cold pressing the kernels of Ente Plums (from France).

### Lupin Oil

Extremely rich in **carotenoids and vitamin E**, this very stable oil has strong **anti-oxidant and anti-radical properties**. It is derived from sweet white Lupin seeds.

### Avocado Powder

Obtained from the whole fruit, this fine powder gently **exfoliates** the most delicate skin, refining the skin tone and optimize the action of skincare products.

### Cupuacu Butter

A plant substitute for lanolin, this butter is capable of retaining water in the epidermis, making it an **excellent moisturiser**. It melts on the skin without shine. It is derived by pressing Cupuacu seeds from the Amazon forest.

### Andiroba Oil

Traditionally used by the populations of the Amazon forest to **repel insects** and for its **soothing and healing properties**, this oil from the "Tree of Life" is particularly suitable for the formulation of after-sun products.

 raw material approved for the formulation of finished products certified by Ecocert Greenlife
